

Performance

Since its founding in 2014, EVEXIA Bio Fund has grown to over \$180,000 in AUM, and our shares have more than doubled in value. The fund has generated and voted on 50+ pitches centered on cutting-edge life science companies. Our partners have led exciting careers in healthcare, biotechnology, hedge funds, management consulting, and academic science.

Portfolio Management

All decisions are made by the partners whose votes total a majority of the votes present at EVEXIA meetings. Partners have the number of votes corresponding to the number of EVEXIA shares he or she owns. Any partner or member of the community may pitch an investment idea after submitting the pitch deck to the officers for approval.

Partnership Application

New partners may be added quarterly. Partners are expected to attend and participate in meetings and contribute new investment ideas. Interested individuals may apply for membership by submitting a resume and cover letter to evexiabiofund@gmail.com. If approved by the officers, membership will be voted upon at the following Quarterly Meeting. Once approved, new partners must invest in a minimum of 5 shares, submit the deposit slip, sign the Partnership Agreement, and submit a Schedule K-1 Tax form. Any partner may withdraw the partial or full value of his or her shares at the Annual Meeting in December, although special circumstances may be considered.

Investment Risks

Past performance does not necessarily predict future results. Investing in the life sciences involves considerable risk, including loss of capital. Individual partners are not liable for losses incurred by the EVEXIA Bio Fund.
